## Landing Page (Desktop) - Register

A desktop browser window titled 'Postmelon' with a search bar and navigation links. The main content area features a large placeholder image on the left and a registration form on the right. The form includes links for 'Register' and 'Login', followed by input fields for 'Full name', 'Email address', 'Password', and 'Confirm Password', and a 'Register' button.

## Landing Page (Mobile) - Register

A mobile browser window titled 'Postmelon' with a search bar and a hamburger menu. The main content area features a registration form with links for 'Register' and 'Login', followed by input fields for 'Full name', 'Email address', 'Password', and 'Confirm Password', and a 'Register' button.

The user can login either through the navigation bar or through the form below by clicking on Login.

By default the landing page will be the registration form. Completing all the fields and clicking register will move navigate the user to the home page.

If the user chooses to login through the form by clicking 'Login' then the form will change view to the login form instead.

Clicking 'Login' will navigate the user to the Home page.

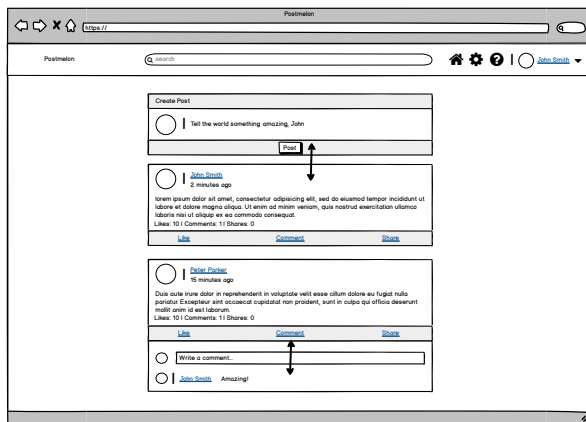

## Landing Page (Desktop) - Login

## Home (Desktop)

## Home (Mobile)

The newsfeed is sorted by recent posts.

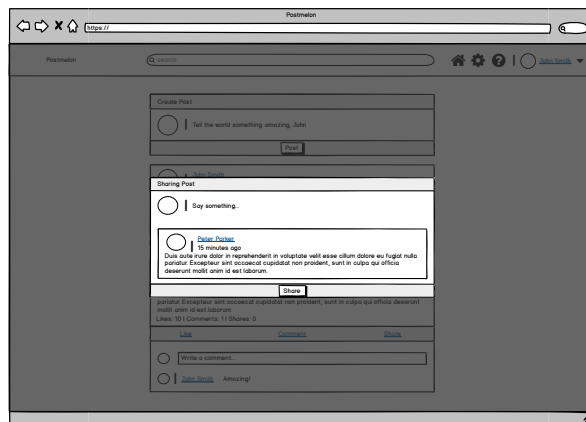

When the user enters a message and clicks 'post', the post will appear on the top of the newsfeed.

When the user clicks on the 'comment' hyperlink, the comments sections should appear. This will also be sorted by latest.

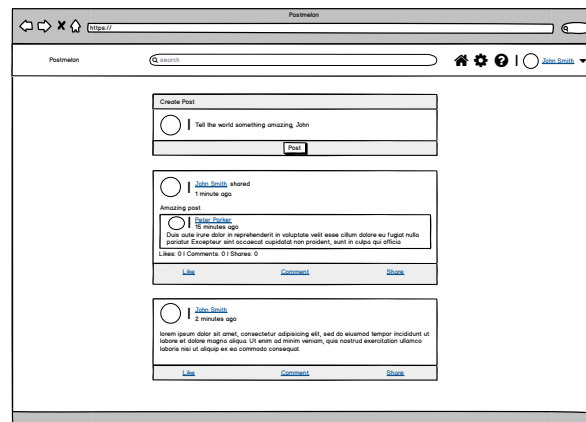

When the user clicks 'like' a counter should appear displaying the amount of likes a post has.

When the user clicks 'share' it will prompt a popup to create a new post with the shared post attached as well. The shared post will then appear on the newsfeed as the latest post and redirected back to the home screen.

Public Profile (Desktop)

Public Profile (Mobile)

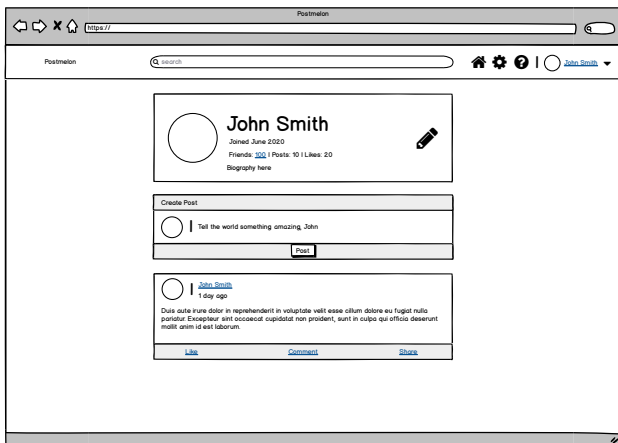

If the user marks their profile has 'public' when searched they will be able to add the searched user as a friend by clicking on the '+' icon.

On a user's profile you can view all the posts made by that user.

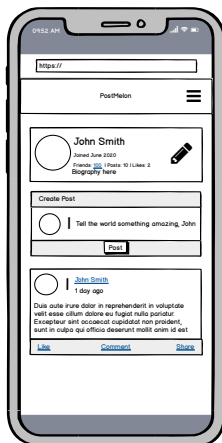

If the user chooses to modify their own profile they can click on the 'pencil' icon to begin editing their profile.

If the user is viewing their friend's profile and clicks on the 'x' button, it will prompt a confirmation dialog box. If accepted, it will remove that user from their friend's list and revert to the public profile view.
